

# NET ZERO COMMITMENT STATEMENT

AT EXPO EVENTS SERVICES, WE RECOGNISE THE URGENT NEED FOR COLLECTIVE ACTION TO COMBAT CLIMATE CHANGE AND PROTECT OUR PLANET FOR FUTURE GENERATIONS.

As a leading events and exhibitions company based in Australia, we are committed to reducing our environmental footprint and achieving net zero emissions and have signed the pledge with Net Zero Carbon Events Initiative. Our commitment to sustainability encompasses every aspect of our operations, from planning and execution to daily office practices.

## WE PLEDGE TO

**Reduce Emissions** We will minimise our carbon emissions by implementing energy-efficient and low consumption practices, utilising renewable energy sources wherever possible, and optimising transportation logistics to reduce our carbon footprint.

**Offset Remaining Emissions** For emissions that cannot be eliminated entirely, we will invest in High-quality carbon offset projects that contribute to environmental conservation, renewable energy development, and community sustainability initiatives.

**Sustainable Practices** We will prioritise sustainable materials and practices in exhibition planning and execution, including minimising waste generation, promoting recycling, and sourcing eco-friendly products and services from local suppliers and strengthening our relationship with Forest Stewardship Council (FSC)

**Education and Advocacy** We are dedicated to raising awareness about climate change and promoting sustainability within our industry and among our clients, partners, and stakeholders. Through education, advocacy, and collaboration, we aim to inspire positive change and encourage others to join us in the journey towards a greener future.

**Continuous Improvement** We will regularly monitor, measure, and transparently report on our progress towards achieving net zero emissions. Through ongoing evaluation and adaptation of our strategies, we will continuously strive to enhance our environmental performance and contribute to global efforts to mitigate climate change.

By embracing this **NetZero Commitment**, we affirm our responsibility to safeguard the environment and contribute to a more sustainable future for all. Together, we can make a difference and create lasting positive impact.
